

Nevermind Nessie TECHNICAL RIDER

Doubts or questions: info@nevermindnessie.be | +32 (0) 499 54 30 66 (Hendrik)

Power Supply:

- 3 outlets ~230V for our pedalboards & DI power supply (to avoid noise: keep your light gear on a separate circuit)
- 2 channels with Phantom Power +48V for our accordion clip-on mics

Monitoring:

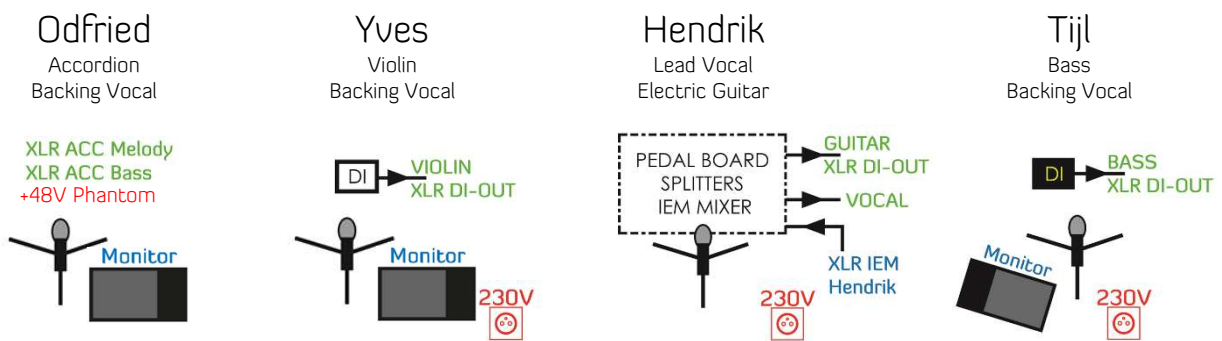

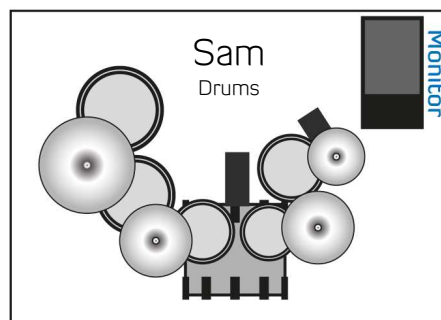

- 4 floor monitors
- If decent bass response in the monitor is an issue, please provide a bass amp or let us know, so we can bring our own
- 1 x XLR-cable for IEM Hendrik: We bring the IEM-equipment, we just need an XLR-cable with the monitor mix

Input List

Our Instruments	Our Gear Specifications	Gear To Be Provided
